HERITAGE - TERRACOTTA

LELIEVRE
PARIS

Conceived as the textile translation of an aerial view of the desert, HÉRITAGE is a 100% cotton Jacquard fabric. The irregularity ofthe landscape has been transcribed into contrasting weave patterns and slanting lines colliding with one another, like the ever-changing shapes of the desert dunes. The design is further enhanced by patches displaying a granular effect that brings contrast to the whole. Available in three variants: natural, autumnal and terracotta. | Design: Tristan Auer
