ALTITUDE is the masterpiece of the BOREALIS collection, a spectacular tapestry boasting a subtle blend of figurative and stylised contemporary motifs. It draws inspiration from typical Scandinavian scenery, depicted in a pictorial fashion. The result is a highly contemplative design. In a feat of craftsmanship, the outstanding weave work brings out every detail, emphasising volume, contributing to a sense of refinement and movement. The fabric features a distinctively high repeat. Available in two colours: Glacier consists of natural tones, white with warmer ochre accents for a stunning interplay with natural light. Crépuscule displays bolder colours - celadon, indigo, cognac - in an evocation of the darker hours before nightfall.
