The new fabric of the Patrimoine collection has been entirely designed around the classic and iconic motif of the same name also known as paisley. Woven in the Lelièvre mill in the Lyon region, France, this fabric with large cashmere patterns is very rich in its treatment of details and integrates for the very first time wool in echo of traditional Kashmir shawls. Kashmir is a silk chain lampas woven silk and wool that brings a warm side to the fabric. The introduction of wool threads gives it subtle matte effects, it is thus endowed with a magnificent hand and a very beautiful fall. Kashmir is available in three colours: a deep ruby, a vine black and o tone on tone, sand.
