The new Tassinari & Chatel design Is taken from their archives, it's of the Renaissance style created around 1880. A composition inspired by the Orient, imagined around a stylized pomegranate motif, surrounded by a mandala of small flowers. While the archive isa chiseled velvet, the LES GRENADES fabric presented in 2023 is a 100% silk lampas available in four colours: a typical crimson, illuminated by a light blue thread - a deep garnet colourway - a saphire blue combined with beige and purple - and a gold, in several golden tones, very prevalent in the Renaissance period.
