

TULIPES - CORNALINE

1695-01

A delicate parterre of stylised tulips sculpts the surface of this velvet, in a sober, well-balanced arrangement in an Art Deco spirit. The smooth, frosted texture of the pile is enhanced by the subtly oxidised colours of the lurex threads used in the construction of the velvet base. Six dense, luminous colourways will add a touch of refinement to both classic and contemporary furniture.
