

NEO - BRONZE

3272-03

NÉO is born from the meeting of two distinct patterns: a reimagined stripe and a geometry inspired by a rug. Designed by Alexia Leleu, their fusion gives rise to a unique design, where lines intertwine to create a new signature. The linen blend, combined with embroidery and cut-thread techniques, creates a soft, feather-like texture. The colour palette, echoing that of SYLVE fabric - 3271, enhances the unity and coherence of the collection.
