

MILLY-LA-FORÊT - HERBIER

6471-01

This motif recalls the sumptuous plant decor of the walls of the Saint-Blaise des Simples chapel in Milly la Forêt painted by Jean Cocteau. To pay tribute to Saint-Blaise, a famous healer who used medicinal plants, then called simple, he pitched beautiful flowering stems like a giant herbarium onto the walls of the chapel, rising into the sky like a prayer. We have respected the remarkable scale of these flowers by creating a wallpaper that can reach into infinity as a panoramic. This paper is digitally printed on a non-woven backing with matte finish.
