TAPIS CAMELIA NATUREL

6803-01

PREMIERACTE is the result of a collaboration between Tristan Auer, Red Edition and Lelièvre Paris. The collection includes Camélia, an elegant rug in New Zealand wool, tencel and cotton in the shape of a Camellia flower, represented by a range of six shades of cream from matt to gloss, evoking both the dew on the petal and the velvety texture. Four types of curl accentuate the richness of this flower, from the fine, regular curl to the thick, round curl. The natural feel of this rug is accentuated by two heights of pile.
