

EMBROIDERY AND FRINGES INSPIRED BY
THE ETHNIC KAYAPO TRIBES, BY MAISON LELIÈVRE

K A Y A P O

561

The marriage of folklore has become an aesthetic classic...

The structure of the design is inspired by the geometric plans of formal gardens while the embroidery comes from the ethnic Kayapo tribes, native to the Amazon forest. Fringes and vivid colors are reminiscent of the headdresses and ornamental jewellery. The embroidery is precious, fine and delicate, while the contrasting colors enliven the background of linen and cotton. 3 brilliant colorways for curtains full of character and graphic accessories.
